EXPERIENCE

Portfolio

amalyuldashev.online

 **Frontend Developer @Freelance | since September 2023**

I master all the fundamental technologies for developing web applications, including **HTML**, **CSS**, **JavaScript**, and WordPress, as well as working with the popular **React** framework. I have successfully developed several projects from scratch, including websites and web applications, taking on both development and optimization of user interfaces to ensure a seamless user experience. Additionally, I have experience working with **databases** and integrating **APIs** to improve the functionality and efficiency of applications.

 **CEO-Owner @Jinn Limited | since August 2024**

Responsible for the strategic development and expansion of the company, focusing on unique travel experiences in Central Asia. Expertise in tourism management and the implementation of innovative business models.

[Website](#)

 **Head of Department @TUI | April 2024 - August 2024**

Responsible for leading and optimizing departmental processes, team management, as well as developing innovative solutions to enhance customer satisfaction and efficiency.

 **IT Project Manager Internship @AME Projekte | March 2024 - April 2024**

Full-time Internship

Creation of a project environment and templates to optimize future projects. Practical application of project management skills to achieve goals and successfully complete IT projects.

Training Focus:

- **Methodology:** Agile (Scrum).
- **Tools:** Microsoft Office, Microsoft Teams, Miro, Microsoft 365.
- **Core Competencies:** Engagement planning, project initiation, and control.

EXPERIENCE

» IT Project Manager Trainee @NeueFische | *March 2024*

Intensive Full-time Bootcamp

180 hours of hands-on project management with a focus on developing project environments and templates for future projects. Ready to apply acquired knowledge to achieve goals and successfully complete IT projects.

Training Focus:

- **Methods:** Agile (Scrum, Kanban).
- **Tools:** Confluence, Slack, Miro.
- **Core Competencies:** Stakeholder analysis, requirements management, risk management, engagement planning, team leadership, project initiation, and control.

W Frontend Developer @Wemakefab | *September 2019 - April 2021*

Developed and maintained web applications, created responsive interfaces using modern JavaScript frameworks. Integrated APIs, optimized performance, and ensured cross-browser compatibility. Collaborated with designers and backend developers, participated in code reviews, and contributed to improving development processes.

Projects:

- **AMQ** – Redesigned the trader's personal account for a Dubai-based company specializing in currency trading. The task included updating both the design and technical aspects of the trading ecosystem to ensure a user-friendly and intuitive experience.
- **Polesad** – Developed a web application for farmers to analyze costs and determine optimal growth strategies. The app replaced paper journals and spreadsheets, providing a practical tool accessible via smartphones.
- **SASCO** – Created a corporate website for the Sakhalin Shipping Company.

Team Coordinator @Cross Travel | *January 2018 — March 2020*

Responsible for coordinating team tasks, optimizing workflows, and ensuring smooth operations in organizing and conducting trips. Actively supported the development of customer-oriented solutions and enhancing team performance.

Ticket Administrator @TashkentKargo | *June 2016 - December 2017*

Responsible for managing the ticket booking system and overseeing the entire process of ticket sales and bookings. Verifying the accuracy of data, handling customer inquiries, and ensuring the currency and correctness of fare and flight information. Responsible for issuing electronic tickets and coordinating collaboration with other departments within the company.

Tennis Coach @Self Employed | *since 2013*
